IMPACT REPORT 2021

Patients & Treatment

.....

1,628

treatments given in 2021

(and 7,208 treatments given since our founding in 2017)

.....

58 new patients reached in 2021, with

\$15,038 given in donated care (100% subsidized)

Every treatment we provide is subsidized 81%–88%. Insurance does not pay for HBOT, and part of our mission is to help people get the care they need!

.....

Patients come from

9 **U.S. States** (VT, NY, NH, MA, CT, CA, CO, FL, GA) **and Canada,** and **all 14 counties in VT**

Education & Outreach

.....

4 **Provider Training sessions given**

4 **Affiliates**

.....

1,854 people on our mailing list

.....

We are growing and **getting the word out**

about HBOT through

YouTube videos
podcasts • newsletters
blogs • social media posts
Front Porch Forum ads
traditional media outlets

Development

.....

82 **total** donors and grantors

.....

\$65,510 in donations

.....

\$55,850 in grants

OUR MISSION IS

to raise awareness of the benefits of hyperbaric oxygen therapy and to make this life-changing treatment accessible.

STORIES 2021

From Our Patients

*"I was having 24/7 headaches. To have only one headache a month is truly a godsend. **Thank you HBOT for making life liveable again!**"*

—G.N.

*"Hyperbaric Vermont is a game changer for health. My body was experiencing an inflammatory response that left me with a multitude of symptoms and feeling frustrated for answers. After hearing an ad on the radio, I decided to try it. I'm so glad I did! **I've experienced a reduction in all my symptoms since starting.** I'm a believer in the healing power of hyperbaric oxygen therapy; I am spreading the word to family, friends, and colleagues. We are so fortunate to have access to this service in central Vermont."*

—M.D.

New Accessible Chamber

Hyperbaric Vermont's mission is to make life-changing hyperbaric oxygen therapy accessible to others. However, during the past few years we have had to turn away patients because our chambers were not wheelchair accessible. It didn't take long for us to create a Special Appeal Campaign to raise monies for the purchase of a Newtowne wheelchair accessible chamber. Our campaign began in August and by mid-September we were able to accommodate any wheelchair users at our South Burlington location! Thank you to our donors and to Newtowne Hyperbarics for making this possible!

Two New Employees

In April, **Aly McHugh** joined the Hyperbaric Vermont team as Marketing Director. Aly comes to Hyperbaric Vermont after years of doing marketing and promotion for her own business as well as for other businesses in the central Vermont area.

*"It's a thrill for me to be working with a non-profit that offers subsidized treatment so that **anyone can afford this therapy.** HBOT has been so helpful to many and I am happy to be able to spread that word!"*

In August, **Kelly Foster** joined Hyperbaric Vermont's patient care team. Kelly brings with her both patient care and business management experience as well as her respect for non-profit organizations.

*"I am passionate about offering alternative health solutions that will **treat the underlying cause and not just the symptom** — at a cost that is affordable to all."*

Patient Care Associate Kelly Foster stands next to the new wheelchair accessible Newtowne chamber.
